

Hydrabond Breaker

Bond-breaker for ensuring no bonding in special pre-cast and other installations

Description

Hydrabond Breaker is a water-repellant which is free of oil, wax, paraffin and other greasy substances, which is easy to apply on horizontal, vertical, inclined surfaces as also overhead; It does not interfere with the concrete placement and facilitates constructions such as 'match-cast', 'tilt-up' and 'tilt-slab' manufacturing.

Object

- Pre-cast yards
- Segmental installations of pre-cast elements on expressways, bridges, elevated train constructions, etc.

Advantage

- Ensures no bond-formation between successive concrete pours
- Easy application by brush, roller or by spray
- Thixotropic and thus non-sagging on sloped, vertical and overhead installations
- Easy to remove by water-jet
- Free from oil, wax, paraffin and other greasy substances
- When applied, it forms a dry film on coated concrete surface
- Saves construction time

Instruction for Use

- Clean concrete surface to be coated
- Apply Hydrabond Breaker in one coat with brush, roller or by spraying and leave it to dry for some 1-2 hours before casting
- Clean off applied surface after removal new castings with water-jet

Characteristics

Appearance:	gel consistency, milky white
Bulk density:	1.0 ± 0.1 g./cc
Consumption :	1 coat at 0.2 lit/m ²

Storage

In dry conditions and protected from direct sunlight

Packing

20 L. /Pail

Precaution

Non-toxic. If Hydrabond Breaker come in contact with skin, wash off with water. If eye-contact, rinse with plenty of clean water without rubbing and seek medical advice.
